Institutions and Political Inequality*

February 27, 2019

The data is part of Round 7 of the European Social Survey, and contains only observations for Great Britain.

The following variables can be found in the data:

1. `stfdem`: satisfaction with the way democracy works in Great Britain, from 0 (“extremely dissatisfied”) to 1 (“extremely satisfied”);
2. `male`: respondent is male (1=yes; 0=no);
3. `agea`: age of respondent, in years (ranging from 15 to 105);
4. `eduyrs`: years of full-time education;
5. `mbtru`: membership in trade union (1 = yes, now or at some point in the past; 0=no, never);
6. `hinctnta`: household income, after tax and contributions (1-10 scale, where 1 is the lowest decile, and 10 is the highest decile);
7. `ppltrst`: trust in other people, ranging from 0 (“can’t be too careful”) to 10 (“most can be trusted”);
8. `age15`: age rescaled by subtracting 15 from each value (ranging from 0 to 90).
9. `clsprty`: closeness to any political party (1=yes; 0=no).
